

ELAM Print -Panel *Elam Oy*

Digitally printed graphics or pictures are possible on lacquered or painted surface of Elam-panels. All commercial wood species of veneer and wood or cement based panels as core board belong to selection. The client can choose and deliver his own graphics and pictures as well. The figure can be placed on one panel or over several panels, if a large figure is wanted.

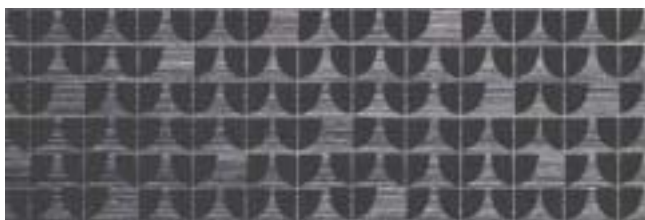

The patterns below are planned by students of Metropolia University of Applied Sciences for panel size **1200x400 mm**.

Standard prints (wood species optional):

Swallows

Arch Black

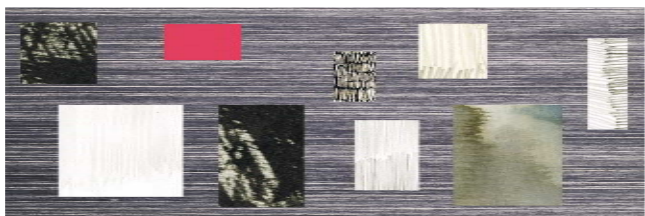

Arch Light

Wind on light wood

Wind on dark wood (black and white)

BlokSit

Wind on dark wood (one color)

Cube filled

Cube filled

Cube black

Cube white

Client's own photo-material
